Can you feel the music?!

The label vokuhila was created at the beginning of the 2003 by the Dj & producer Sebastian Stahl aka Steel. The reason of this decision was the fact that he and his friends have produced many good tracks, which are however were very limited in possibilities for publication.

Furthermore he would like to offer the opportunity to young producers to make their music accessible to the public. For this reason we ask you to send us your demos. The music on vokuhila records does not reflect a certain fixed style. It covers everything from Techno over Techhouse up to groovy tracks.
